- Developing clear technical drawings
- Work closely with the production team
- Build and evaluate prototypes with a hands-on approach
- Keep documentation to communicate applicable information for manufacturing and assembly
- Packaging development
- Improve quality control and consistency in the complete production line both internally and of our suppliers
- Participate in production meetings
- Lead the development of product design solutions for new and already existing collections
- Managing production timelines, plans and timelines including roles and responsibilities for team members
- Responsible for researching and making new supplier contacts and maintaining a relationship with them
- Researching new materials
- Managing project and suppliers budgets/forecasts
- Identifying and resolving risks to projects
- Attending trade fairs and exhibitions

What is expected

- 3D CAD programs, preferably Autodesk Fusion 360
- Preferably knowledge of machining, materials, fits and finishes
- excellent organization skills and the ability to prioritize
- outgoing, dynamic and initiative taking
- good problem solving skills
- can do attitude and enjoy being part of a small team
- good negotiations skills
- fluent Spanish and English verbal and written
- passion for lighting, furniture and design
