

# Palma green

dauidpompa

Palma green pendant light brings together a handwoven palma shade with a sophisticated chrome or coated light gray metal piece. The contrast between a striking metal texture marked by fine openings and the soft weaving surface create an intriguing interplay between industrial production and craft techniques. Green palma is a unique tone, the fine nuances in color create a rich gradient that enhance the material. This particular tone will change gradually over time, giving it its character. Keeping the piece away from direct sunlight will delay this process.
