

# Meta Parallel 142

dauidpompa

Meta parallel are light sculptures that create a displacement of stones suspended in space. The collection is both aesthetically bold and poetic at the same time, exploring the relationship between the beauty of geometry and the roughness of the rocks. An unexpected balance combines the porosity of the stones and the industrial process. Every single object is shaped by an abstract visual concept and composed of elegant symmetry.

Replacement parts are available through davidpompa directly.  
Lead times are subject to change.  
Variations in colour, texture, shape & size are natural characteristics of handmade products and should be expected.

## Measurements Meta Parallel PV142

### Black finish

Black matt powder coated and volcanic rock

A relationship between textures plays with a surprising material combination of volcanic rock and coated aluminum. An unexpected balance combines the porosity of the stones and the industrial process.

### White finish

Soft grey matt powder coated and fiorito stone

### Brass polished finish

Hand polished brass honey colored fiorito stone

The hand polished solid brass will naturally oxidate and reflect the language of time. All surfaces are unsealed, exposure to air and being handled with bare hands will tarnish the pieces upon time.

### Brass serial number

Each piece of the brass collection has an engraved label specifying the progressive serial number to highlight the artisanal work and material finish.

## Canopy Options

### Small canopy

Use for drywall ceilings. LED driver will be inside the drywall ceiling.

Black powder coated 11 x 5,5 x 3,5cm

### Large canopy

Use for brick or concrete ceilings. The LED driver will be inside the canopy.

Black powder coated Ø15 x 4cm

Black and Brass versions have black canopies  
White versions have white canopies

Black and Brass versions have black canopies  
White versions have white canopies
