Meta Parallel 145

Meta parallel are light sculptures that create a displacement of stones suspended in space. The collection is both aesthetically bold and poetic at the same time, exploring the relationship between the beauty of geometry and the roughness of the rocks. An unexpected balance combines the porosity of the stones and the industrial process. Every single object is shaped by an abstract visual concept and composed of elegant symmetry.

PV145

Download installation & care instructions on our website.

Replacement parts are available through davidpompa directly.

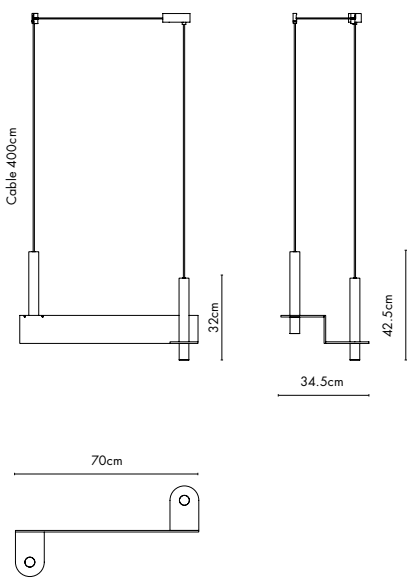
Lead times are subject to change.

Variations in colour, texture, shape & size are natural characteristics of handmade products and should be expected.

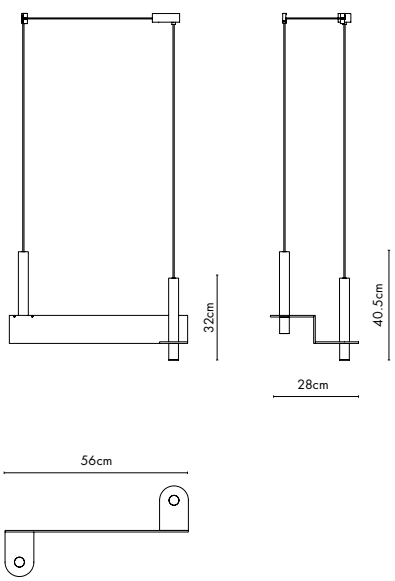
Measurements Meta Parallel PV145

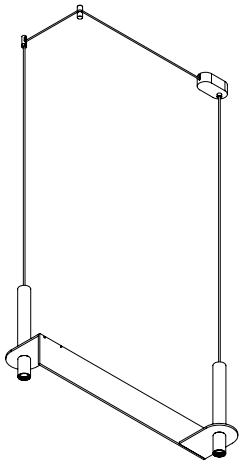
Please be aware that Meta Parallel aluminum and brass have different measurements when using our 3D models.

Black / Grey white



Brass





Black finish

Black matt powder coated and volcanic rock

Grey white finish

Soft white matt powder coated and fiorito stone

A relationship between textures plays with a surprising material combination of volcanic rock and coated aluminum. An unexpected balance combines the porosity of the stones and the industrial process.

Brass polished finish

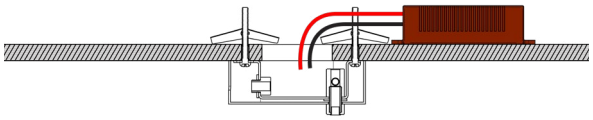
Hand polished brass honey colored fiorito stone

The hand polished solid brass will naturally oxidate and reflect the language of time. All surfaces are unsealed, exposure to air and being handled with bare hands will tarnish the pieces upon time.

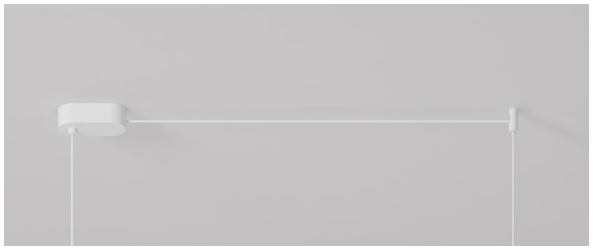
Canopy Options

Drywall ceiling canopy

The LED driver will be inside the drywall ceiling.
Black/White powder coated
11 x 5,5 x 3,5cm



Meta Parallel Black



Meta Parallel grey white

Concrete ceiling canopy

The LED driver will be inside the canopy.
Black/White powder coated
Ø15 x 4cm
