

Drywall ceiling canopy

Canopy techo tablaroca

Meta Parallel 145

Material care

Recinto or fiorito - Use a soft rag, a clean white cloth, or vacuum with a soft brush attachment as needed, do not wipe wet.

Powder coated Aluminum - Dust gently with a duster or soft rag. Do not use commercial cleaners.
Avoid abrasive cleaning agents.

Polished brass - The hand polished solid brass will naturally oxidate and reflect the language of time. Upon touching the items without gloves, fingerprints are likely to occur and leave marks. Use a good quality brass cleaning liquid in order to remove any marks from the brass. Please note that you will also lose the age brass look. Do not apply pressure to avoid any scratches.

Cuidado del material

Recinto o fiorito - Use un trapo suave, un paño blanco limpio o aspire con un accesorio de cepillo suave según sea necesario, no lo limpie en húmedo.

Metal - Retire el polvo suavemente con un plumero o un trapo suave y seco. No utilice limpiadores comerciales. Evite los agentes de limpieza abrasivos.

Latón - El latón sólido pulido, comenzará a tener un lenguaje propio a través del envejecimiento que tendrá.
Por lo que recomendamos usar guantes para evitar marcas no deseadas. Para remover manchas, use un limpiador líquido de metales específicos para latón o plata. Aplíquelo a una microfibras y frote suavemente
