

Cupallo wall

dauidpompa

Cupallo wall joins the classic collection reinventing Cupallo's essence. Solid brass and recycled handblown glass differ in proportions in this wall version. The recycled handblown glass process encapsulates tiny air bubbles in the glass, transforming the light that shines through into a spectacle of multiple reflections. Cupallo's wall brass disk shines through the glass, not only reinforcing its light effect but warming its tone with its metal reflection surface. Both elements work together as diffusers of shine and a charming light.

VS0046W
